

Growth. Values. For Life.

### **JOB DESCRIPTION**

**JOB TITLE:** Educational Technology Integration & Library Specialist

**DEPARTMENT:** Middle-Upper School

**DESCRIPTION:** This position is responsible for mentoring and supporting the faculty in their integration of educational technology tools as well as developing and maintaining a new, state-of-the-art print & digital library for Middle and Upper School students and faculty. The successful candidate will create an environment where collaboration and creative problem solving thrive; will support students and staff in the pursuit of effective technology use and information literacy skills; and will ensure that all students have access to age-appropriate materials, activities, and programs that will foster a lifelong passion for growth and learning. She or he will strongly support diversity in technology tools as well as in collection development. This person possesses strong communication skills and will reach out to faculty, sharing ideas for integrating technology, databases, and library resources into daily classroom practice.

### **SPECIFIC DUTIES:**

#### **Educational Technology:**

- Research and advise administration on emerging technology trends and solutions; participate in strategic planning, advise planning for technology purposes, support the facilitation of the implementation of the educational technology plan.
- Promote and model digital citizenship and responsibilities related to the use of technology and digital information.
- Participate in department, faculty, curriculum, and special meetings and serve on committees whose activities directly affect the integration of technology into the curriculum as needed; pursue professional development.
- Stay current on research and emerging technologies that foster educational applications of technology
- Work with the Director of Teaching & Learning to develop and deliver relevant professional development that incorporates agreed upon technology standards, that explains, emphasizes, and encourages technology integration appropriate to each content area, and use of equipment, desktop, and mobile device platforms, and enterprise software applications

#### **Library Services:**

- Oversee the daily operation of the Middle/Upper School Library
- Monitor & support student activities in the library including before/after school, open periods, etc.

- Create a responsive & evolving library environment through the effective use of material display, furnishings, and decor
- Ensure a quiet environment so that students can study, research, etc.
- Analyze, process, develop and manage information systems for the library
- Perform standard updates and routine procedures necessary for the operation of the library information system; troubleshoot system processes, assist with the design and development of system usage reports; provide support to projects that use and interact with elements of the library system
- Develop budget for the library including expected purchases, maintenance expenses on existing equipment; design detailed financial and statistical reports reflecting performance and usage of the variety of library systems and services for the library and campus community
- Provide group instruction and individual user guidance for students in location of resources and use of research techniques
- Consult and plan with teachers on the appropriate use and scheduling of materials for classroom instruction and/or library technology resources used by students
- Inform users of library media center materials and provide staff development opportunities for teachers in the availability and utilization of learning resources
- Manage the acquisition, processing, organization, distribution, maintenance, and inventory of resources
- Collaborate with the LS Librarian to make the best use of faculty, staff resources and volunteers

**QUALIFICATIONS:**

- Bachelor's degree in Educational Technology, Library Science or related field
- Knowledge in design of 21st Century learning environments
- Expertise in educational technology
- Experience/Interest in collaborating with students, teachers, librarians and volunteers
- Understands the many ways in which information can be created, communicated, stored, and/or transformed to benefit the school
- Incorporate new and constantly changing technologies into the library
- Possesses problem solving and decision making skills
- Excellent verbal and written communications skills
- Able support school mission and strategic initiatives
- Ability to maintain confidentiality at all times regarding the Ursuline community

**COMPETENCIES NEEDED:**

The skills required to perform multiple technical tasks with periodical upgrade skills in order to meet changing job conditions. The employee will be required to prioritize, analyze situations to define issues and schedule accordingly.
